

# QUICK CLIP

The Victory Bear Quick Clip insulation retaining system is ideal for holding insulation securely on tilt-up walls. Its quick and easy installation method helps reduce your overall costs. Its attractive finish also provides a superior look for your insulated walls.

## FEATURES & BENEFITS

### Energy-Efficient Design

-Victory Bear Quick Clips have a unique co-extruded design, combining rigid and soft PVC to hold insulation tightly in place and create an air-tight seal.

### Durable

-PVC is durable and will maintain its attractive finish for years.

### Impact-Resistant

-Quick Clips withstand the impact of a nail gun without splitting.

### Easy to Work With

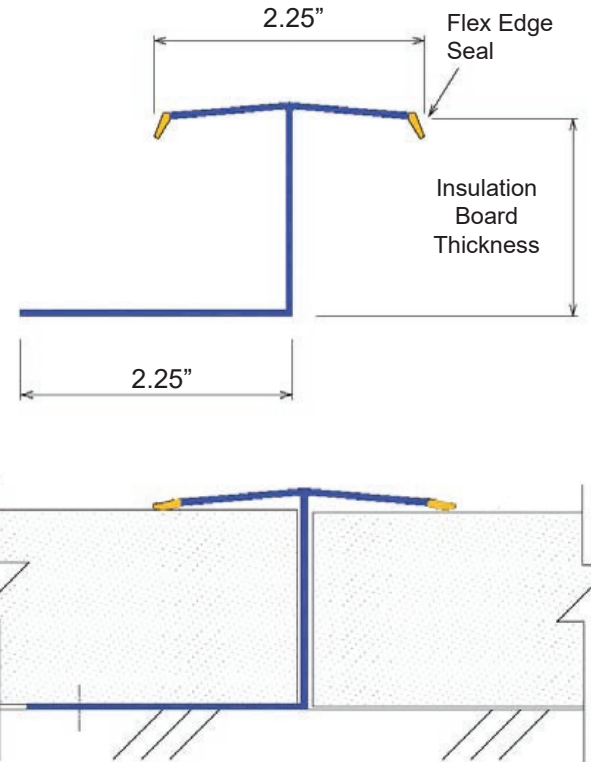

-Victory Bear Quick Clips can be cut with standard power saws.

### Attractive Finish

-Victory Bear Quick Clips are manufactured to an attractive white finish and do not require painting. Call for custom color applications.

### UL Tested

-Class A material, tested by Underwriters Laboratories (UL 723-test for surface burning characteristics of building materials). Flame spread is 0 and smoke developed equals 190.

## QUICK CLIP INSTALLATION

- Step 1- Align the Quick Clips at widths appropriate for the insulation size.
- Step 2 - Nail or staple the Quick Clips into place.
- Step 3 - Install the insulation.

Part Number	Part Name	Ft/Pc	Pc/Box
1552	Quick Clip Flex 1.0"	10	20
861	Quick Clip Flex 1.25"	10	20
