

## SAW CUT COVER

Victory Bear's Saw Cut Cover is a coextruded PVC temporary joint filler that quickly and easily protects and seals saw cut joints in casting slabs. The Saw Cut Cover's flexible fins eliminate concrete seepage into saw cut joints, which can cause unwanted defects in the surface of the wall panel. Victory Bear has Saw Cut Cover options to cover joints ranging from 1/16" to 1/4" wide.

### FEATURES & BENEFITS

#### The Best of Both Worlds

Victory Bear's combination of rigid and flexible PVC aids in function and ease of use. Its rigid structure makes it easy to install compared to completely flexible brands. The flexible fins ensure a secure fit in imperfect saw cuts, and a tighter seal against the slab than with completely rigid varieties.

#### Save Time and Labor

The Victory Bear Saw Cut Cover's ease of use makes it the perfect labor-saving choice. Installs quickly and easily to protect the control joints in your casting slab. Plus, its tight seal eliminates ridges in the concrete wall, saving you hours of costly grinding time and labor.

# SAW CUT COVER

Victory Bear's original coextruded design—a rigid skeleton with soft PVC fins—makes for a much more user-friendly, highly functional product.

## SEE THE VICTORY BEAR DIFFERENCE

Victory Bear's Saw Cut Cover eliminates the costly time and labor that would be otherwise needed to grind away and patch wall surface defects from unprotected saw cut joints.

Part Number	Part Name	Range of Saw Cut Width	Pieces Per Box	Ft. Per Box
872	Saw Cut Cover 1/16"	1/16"-1/8"	100	800
862	Saw Cut Cover	1/8"-1/4"	100	800
