VICTORY BEAR ONE-PIECE BULKHEAD

NEW BULKHEAD FOR EASIER GLUING!

Introducing Victory Bear's new **#725 ONE-PIECE BULKHEAD DOUBLE CHAMFER** for 1x dimensional lumber or 3/4" plywood!

Designed with the same dimensions as our popular #767 Bulkhead, the #725 provides a more glue-friendly option, with the same labor-saving quality you've come to expect from Victory Bear.

Rigid PVC structure provides a superior finish, while the flexible PVC seal eliminates the need for caulking.

Unique bottom design allows the chamfered edges to seal against the slab, while providing ample surface contact area for easy glue adhesion.

High sides create stability, allowing easy insertion of the board while firmly holding it in place.

Pairs perfectly with Victory Bear #803 Topside Double Chamfer.

**FOR 1X DIMENSIONAL LUMBER
OR 3/4" PLYWOOD**
