

# VICTORY BEAR 1" x 1/2" V-GROOVE RUSTICATION

## OUR GROOVY NEW REVEAL!

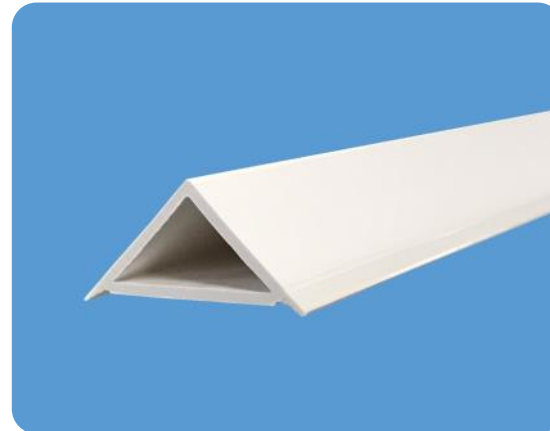

Victory Bear 1" x 1/2" V-Groove Rustication is the latest size option available for creating a triangular reveal in your next tilt-up or precast project.

### FEATURES & BENEFITS

- **Flexible Seal** - Victory Bear's flexible PVC edge seals help conform to surface imperfections, preventing concrete from seeping under the rustication strip.
- **Excellent Release from Concrete** - PVC does not stick to concrete, unlike wood.
- **Designed for Glue** - The soft fins and flat bottom are designed to allow easy gluing to the casting surface.
- **Save Time and Labor Costs** - The superior finish provided by Victory Bear rustication eliminates the need for costly patching and grinding after the panels are lifted.

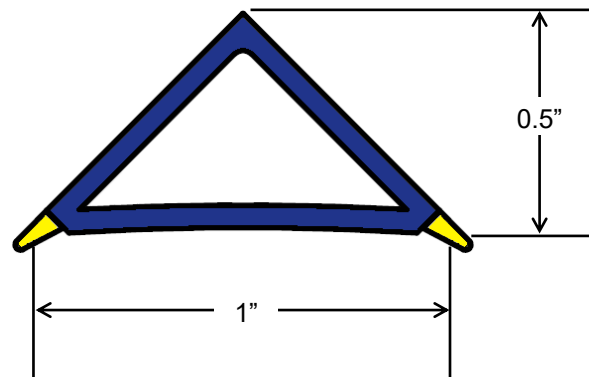

Along with our #801 Tri-Snap Rustication, Victory Bear's #885 1" x 1/2" V-Groove gives you multiple size options for creating triangular reveals:

Part Number	Part Name	Width	Height	Chamfer Angle	Soft PVC Seal?
885	1" x 1/2" V-Groove Rustication	1"	0.5"	45°	YES
801	1.5" x 3/4" Tri-Snap Rustication	1.5"	0.75"	45°	YES

#885 V-Groove glued to slab
